00:00:00,000 --> 00:00:06,100 [Written title: Arak Journal, Assumptions]

2

00:00:06,100 --> 00:00:19,733 [Music] [Written question: What assumptions did you have about your topic and how did they evolve throughout your research process?]. I guess the primary assumption that I

3

00:00:19,733 --> 00:00:22,333 had going in was I felt that you know

4 00:00:22,333 --> 00:00:24,033 the relationship between producer and

5

00:00:24,033 --> 00:00:26,500 consumer was very one-sided. Like it was

6 00:00:26,500 --> 00:00:28,200 you know the producer is employing all

7 00:00:28,200 --> 00:00:30,100 of these tactics and the consumer is

8

00:00:30,100 --> 00:00:31,900 kind of mindlessly spending all of this

9 00:00:31,900 --> 00:00:33,900 money. And I see people with hundreds of

10 00:00:33,900 --> 00:00:38,133 dollars of groceries every shift. And as

11 00:00:38,133 --> 00:00:40,333 I researched, I realized that you know

12 00:00:40,333 --> 00:00:42,233 there is some truth to that but the 13 00:00:42,233 --> 00:00:45,600 relationship is a little more, it's a

14 00:00:45,600 --> 00:00:47,100 little more mutually beneficial in that

15 00:00:47,100 --> 00:00:48,666 sense you know. There is this duality

16 00:00:48,666 --> 00:00:51,666 between producer and consumer. And if I

17 00:00:51,666 --> 00:00:53,233 hadn't really researched further and

18 00:00:53,233 --> 00:00:55,033 kind of moved away from my own

19 00:00:55,033 --> 00:00:56,700 observations I don't think I would have

20 00:00:56,700 --> 00:00:59,300 ever really grasped that second part of

21 00:00:59,300 --> 00:01:02,666 it. The latter is so

22 00:01:02,666 --> 00:01:05,266 essential to my thesis. I guess it ties

23 00:01:05,266 --> 00:01:07,366 back again into my experience being a

24 00:01:07,366 --> 00:01:09,966 Filipino. Poverty and food insecurity 25 00:01:09,966 --> 00:01:12,300 and in my experience of what

26 00:01:12,300 --> 00:01:15,700 I've seen firsthand and with my

27 00:01:15,700 --> 00:01:18,433 neighbors in the Philippines, there

28 00:01:18,433 --> 00:01:20,533 was that high correlation. And then I saw

29 00:01:20,533 --> 00:01:23,500 that here too in America. But that really

30 00:01:23,500 --> 00:01:26,766 wasn't satisfying enough answer for me.

31 00:01:26,766 --> 00:01:29,500 You know one can't just be hungry

32 00:01:29,500 --> 00:01:31,733 because they're poor. Nor one can can't

33 00:01:31,733 --> 00:01:35,366 just be poor because they're hungry. I

34 00:01:35,366 --> 00:01:39,366 really was thinking there must be something

35 00:01:39,366 --> 00:01:41,966 special about the relationship

36 00:01:41,966 --> 00:01:45,366 between the two that that makes it so 37 00:01:45,366 --> 00:01:48,100 pervasive and almost universal. I wasn't

38 00:01:48,100 --> 00:01:50,700 satisfied with just if then than that.

39 00:01:50,700 --> 00:01:54,533 And I also really wasn't satisfied with

40 00:01:54,533 --> 00:01:59,166 the idea that some people assume

41 00:01:59,166 --> 00:02:01,266 that this is a problem that's cordoned

42 00:02:01,266 --> 00:02:03,866 off in some far-off corner of the globe.

43 00:02:03,866 --> 00:02:07,666 It doesn't pertain to us because we are

44 00:02:07,666 --> 00:02:09,600 an advanced nation, or we are a more rich

45 00:02:09,600 --> 00:02:11,366 nation. Or it doesn't apply to us because

46 00:02:11,366 --> 00:02:15,200 our history has been different. Clearly

47 00:02:15,200 --> 00:02:17,200 after looking at it a little bit after

48 00:02:17,200 --> 00:02:18,666 researching it, I found that's 49 00:02:18,666 --> 00:02:22,400 not exactly the case. So really the

50 00:02:22,400 --> 00:02:25,033 assumption was there must be something

51 00:02:25,033 --> 00:02:26,900 concrete there. There must be something

52 00:02:26,900 --> 00:02:28,900 more to it. And I guess I was a bit

53 00:02:28,900 --> 00:02:31,466 desperate for that because once you find

54 00:02:31,466 --> 00:02:34,133 a concrete cause you ground the problem

55 00:02:34,133 --> 00:02:36,166 in something. You put it in the same

56 00:02:36,166 --> 00:02:39,566 plane as us. And that way if you can give

57 00:02:39,566 --> 00:02:41,933 a problem a cause you can just then

58 00:02:41,933 --> 00:02:45,633 afterwards start giving it a solution.

59 00:02:45,633 --> 00:02:48,100 I was kind of assuming going in that there

60 00:02:48,100 --> 00:02:50,033 would at least be a little bit of like a 61 00:02:50,033 --> 00:02:53,833 positive mindset in relation to politics

62 00:02:53,833 --> 00:02:55,400 and social media. I mean I was kind of

63 00:02:55,400 --> 00:02:58,700 hoping there'd be something. I know being

64 00:02:58,700 --> 00:03:00,500 a student I hear a lot you know all

65 00:03:00,500 --> 00:03:01,933 these negative things that social media

66 00:03:01,933 --> 00:03:03,800 is doing how it's impacting us all these

67 00:03:03,800 --> 00:03:05,666 different terrible things that come out

68 00:03:05,666 --> 00:03:07,033 of social media. And I'm like well maybe

69 00:03:07,033 --> 00:03:08,633 it does have some benefits. And I was

70 00:03:08,633 --> 00:03:10,466 kind of hoping going in and I find some.

71 00:03:10,466 --> 00:03:13,366 And the whole like idea that I had I

72 00:03:13,366 --> 00:03:16,066 almost had this kind of drive to find 73 00:03:16,066 --> 00:03:17,500 something that would say look it's not

74 00:03:17,500 --> 00:03:19,700 you know this terrible object like it's

75 00:03:19,700 --> 00:03:21,666 actually kind of beneficial. I was

76 00:03:21,666 --> 00:03:24,033 realizing that my assumption that a lot

77 00:03:24,033 --> 00:03:27,233 of people don't see it that way was like

78 00:03:27,233 --> 00:03:28,666 kind of solidified as I was doing

79 00:03:28,666 --> 00:03:30,900 research which was really interesting.

80 00:03:30,900 --> 00:03:36,600 I assumed it was a very bipartisan issue.

81 00:03:36,600 --> 00:03:38,566 I thought the Democrats would probably

82 00:03:38,566 --> 00:03:41,333 support it a lot more. And then I did my

83 00:03:41,333 --> 00:03:46,233 research and the first huge bit of

84 00:03:46,233 --> 00:03:49,300 legislation I found came from Texas. 85 00:03:49,300 --> 00:03:52,366 Texas in New York actually have the best

86 00:03:52,366 --> 00:03:55,333 rape kit reform laws in the United

87 00:03:55,333 --> 00:03:59,866 States. That was fascinating to me and

88 00:03:59,866 --> 00:04:02,400 then also when I interviewed

89 00:04:02,400 --> 00:04:04,833 Representative Paul Baumbach, who is a

90 00:04:04,833 --> 00:04:08,366 Democrat, he talked to me about how

91 00:04:08,366 --> 00:04:11,966 everyone in our legislature had worked

92 00:04:11,966 --> 00:04:14,200 together on a budget bill for this in

93 00:04:14,200 --> 00:04:17,300 Delaware. How it wasn't that divided of

94 00:04:17,300 --> 00:04:20,466 an issue. I had just hated that I

95 00:04:20,466 --> 00:04:23,266 assumed that about... That because of

96 00:04:23,266 --> 00:04:25,433 their political affiliation they could 97 00:04:25,433 --> 00:04:29,300 not be as worried about this as I am. And

98 00:04:29,300 --> 00:04:30,933 as soon as I went in my research

99 00:04:30,933 --> 00:04:34,766 that changed.
