1
00:00:00,000 --> 00:00:08,733
[Title Slide: Research Funding Online - Carol A. Rudisell, Library (rudisell@udel.edu). November 16, 2017.
http://guides.lib.udel.edu/grants]

2
00:00:08,733 --> 00:00:13,533
What I would like you to do is start

3
00:00:13,533 --> 00:00:15,600
on the tab that says University of

4
00:00:15,600 --> 00:00:18,533
Delaware library. And I want to show you

5
00:00:18,533 --> 00:00:20,400
how you can get to these grants

6
00:00:20,400 --> 00:00:23,433
databases. And you should have another

7
00:00:23,433 --> 00:00:26,833
tab that's open for the Foundation

8
00:00:26,833 --> 00:00:29,900
Grants to Individuals Online. So if you

9
00:00:29,900 --> 00:00:32,766
leave that tab alone we'll come back to

10
00:00:32,766 --> 00:00:36,333
it. Once you're here at the library

11
00:00:36,333 --> 00:00:38,800
homepage which is library dot udel dot

12
00:00:38,800 --> 00:00:39,400
edu.

13
00:00:39,400 --> 00:00:44,533
If you click on "Research Guides" and then

14
00:00:44,533 --> 00:00:47,433
click in the search box for grants. And

15
00:00:47,433 --> 00:00:52,533
type grants rather, you'll bring up the

16
00:00:52,533 --> 00:00:54,633
Research Guide for Foundations and

17
00:00:54,633 --> 00:00:57,133
Grants. It will be the very first

18
00:00:57,133 --> 00:01:00,400
entry that comes up. If you click on

19
00:01:00,400 --> 00:01:04,966
that you'll be at this page. Is

20
00:01:04,966 --> 00:01:08,966
everybody with us so far? Okay. So what

21
00:01:08,966 --> 00:01:12,900
you'll see here, aside from my smiling

22
00:01:12,900 --> 00:01:17,966
face and an encouragement to email me or

23
00:01:17,966 --> 00:01:20,933
schedule an appointment, (which I do I

24
00:01:20,933 --> 00:01:25,666
should add I do highly encourage it it's

25
00:01:25,666 --> 00:01:27,566
not just there for decoration

26
00:01:27,566 --> 00:01:29,633
I try to remember to tell people if you

27
00:01:29,633 --> 00:01:31,966
forget everything I said today that's

28
00:01:31,966 --> 00:01:35,200
okay. Shoot me an email and we can sit

29
00:01:35,200 --> 00:01:37,466
down when you're ready to do your search and

30
00:01:37,466 --> 00:01:39,333
you know I can walk you through the

31
00:01:39,333 --> 00:01:41,466
process. So don't be shy about that.)

32
00:01:41,466 --> 00:01:45,200
That's what that link is here for. But on

33
00:01:45,200 --> 00:01:47,366
this page you'll also find the link to

34
00:01:47,366 --> 00:01:50,100
grantspace.org at the Foundation Center

35
00:01:50,100 --> 00:01:51,966
which I I told you is a wonderful

36
00:01:51,966 --> 00:01:53,933
site for learning how to write proposals.

37
00:01:53,933 --> 00:01:57,900
And straight down the middle you'll find

38
00:01:57,900 --> 00:02:00,866
a listing of the grants databases to

39
00:02:00,866 --> 00:02:06,566
start with. And since we have a fair

40
00:02:06,566 --> 00:02:09,766
number of students here today I thought

41
00:02:09,766 --> 00:02:11,933
the first one we would take a look at is

42
00:02:11,933 --> 00:02:14,533
the Foundation Grants to Individuals and

43
00:02:14,533 --> 00:02:16,533
you'll see right here on this page is

44
00:02:16,533 --> 00:02:20,300
telling you: Morris Library access only.

45
00:02:20,300 --> 00:02:23,233
And that is indeed the case. This is the

46
00:02:23,233 --> 00:02:24,733
database that you would have to come

47
00:02:24,733 --> 00:02:27,600
into the library to search. So for today

48
00:02:27,600 --> 00:02:31,066
though if you would flip over to the tab

49
00:02:31,066 --> 00:02:36,000
that says Foundation Grants Individuals

50
00:02:36,000 --> 00:02:39,966
Online, this is where you can access the

51
00:02:39,966 --> 00:02:42,866
database. And hopefully you are seeing a

52
00:02:42,866 --> 00:02:46,300
page that looks like this. And you can do

53
00:02:46,300 --> 00:02:51,600
a search. So you are always welcome to

54
00:02:51,600 --> 00:02:55,166
use the search box that you see on the

55
00:02:55,166 --> 00:03:00,633
front of the database page, but I usually

56
00:03:00,633 --> 00:03:02,233
prefer to use the advanced search.

57
00:03:02,233 --> 00:03:04,333
Because I think it gives you a little

58
00:03:04,333 --> 00:03:07,633
bit more control over what you get. Now

59
00:03:07,633 --> 00:03:11,366
with this database it prefers for you to

60
00:03:11,366 --> 00:03:14,533
use their terminology when searching and

61
00:03:14,533 --> 00:03:17,866
you can get to that terminology by

62
00:03:17,866 --> 00:03:20,966
clicking on "View Index" that's underneath

63
00:03:20,966 --> 00:03:22,966
the element that you're going to search.

64
00:03:22,966 --> 00:03:25,500
and generally what you want to do is

65
00:03:25,500 --> 00:03:27,866
search "Field of Interest" which is your

66
00:03:27,866 --> 00:03:31,200
subject area. And you probably will want

67
00:03:31,200 --> 00:03:36,000
to use "Type of Support". So let me just

68
00:03:36,000 --> 00:03:39,266
demonstrate that and mention too that I

69
00:03:39,266 --> 00:03:42,700
gave you a blue sheet that kind of walks

70
00:03:42,700 --> 00:03:45,300
you through step by step of what you

71
00:03:45,300 --> 00:03:47,366
need to do in this database and how to

72
00:03:47,366 --> 00:03:52,833
get to it. So I'm going to click on "View

73
00:03:52,833 --> 00:03:55,300
Index" for "Fields of Interest" which is

74
00:03:55,300 --> 00:03:59,500
subject area. And you'll see that it

75
00:03:59,500 --> 00:04:03,333
opened up on the left-hand side now an

76
00:04:03,333 --> 00:04:06,300
alphabetical list of search terms.

77
00:04:06,300 --> 00:04:08,733
This is where you get to hunt for your

78
00:04:08,733 --> 00:04:14,533
terms. I'm going to try sociology to see

79
00:04:14,533 --> 00:04:18,600
what I can find. And one thing I would do

80
00:04:18,600 --> 00:04:21,933
is encourage you try to take your topic

81
00:04:21,933 --> 00:04:24,733
of your research and translate it very

82
00:04:24,733 --> 00:04:28,066
broadly. It is possible to put in some

83
00:04:28,066 --> 00:04:31,500
very narrow specific searches but most

84
00:04:04:31,500 --> 00:04:33,600
times you do you get better

85
00:04:33,600 --> 00:04:37,800
if you're searching say at the level of

86
00:04:37,800 --> 00:04:40,133
the name of your discipline for example.

87
00:04:40,133 --> 00:04:42,266
And then sometimes you have to go even

88
00:04:42,266 --> 00:04:45,900
more broadly. Like I did sociology but I

89
00:04:45,900 --> 00:04:49,066
might need to also do social sciences.

90
00:04:49,066 --> 00:04:52,033
So I just clicked on those two

91
00:04:52,033 --> 00:04:54,600
terms and it popped them in the search

92
00:04:54,600 --> 00:04:57,900
box and it put an "OR" in between. Which

93
00:04:57,900 --> 00:05:00,833
is exactly what I want. Now I want to go

94
00:05:00,833 --> 00:05:03,233
down to "Type of Support" and I'm going to

95
00:05:03,233 --> 00:05:07,700
click on "View Index" and then I can see

96
00:05:07,700 --> 00:05:10,233
the types of support that are available

97
00:05:10,233 --> 00:05:13,633
for searching in this database. If I

98
00:05:13,633 --> 00:05:18,200
were say an undergraduate student

99
00:05:18,200 --> 00:05:21,066
looking for support for undergraduate

100
00:05:21,066 --> 00:05:24,500
education I could type in undergraduate

101
00:05:24,500 --> 00:05:28,700
support or click on it. I could also type

102
00:05:28,700 --> 00:05:33,366
in scholarships and see what I get. I

103
00:05:33,366 --> 00:05:37,366
would say for this database, because

104
00:05:37,366 --> 00:05:41,333
there are not as many opportunities in

105
00:05:41,333 --> 00:05:44,066
here as in the other databases

106
00:05:44,066 --> 00:05:47,966
I would not initially specify geographic

107
00:05:47,966 --> 00:05:51,700
focus I would leave that off. And search...

108
00:05:51,700 --> 00:05:54,500
And then you'll see it's giving me nine

109
00:05:54,500 --> 00:05:57,300
opportunities and this is really only

110
00:05:57,300 --> 00:06:01,000
one possible search. Really be creative

111
00:06:01,000 --> 00:06:03,433
in terms of how you think about your

112
00:06:03,433 --> 00:06:08,200
topic. And you know if I were working in

113
00:06:08,200 --> 00:06:10,566
the field of sociology you know I might

114
00:06:10,566 --> 00:06:13,300
want to branch out a bit and see what

115
00:06:13,300 --> 00:06:15,300
might be in the related disciplines of

116
00:06:15,300 --> 00:06:17,933
psychology and behavioral science.

117
00:06:17,933 --> 00:06:20,500
Sometimes you even have to go as broad

118
00:06:20,500 --> 00:06:23,266
as higher education because yeah that's

119
00:06:23,266 --> 00:06:24,833
what you're looking for funding for to

120
00:06:24,833 --> 00:06:28,100
support your higher education. So be

121
00:06:28,100 --> 00:06:30,900
prepared in this database to kind of

122
00:06:30,900 --> 00:06:33,633
hunt around a bit. I'm going to now just

123
00:06:33,633 --> 00:06:37,433
click on the "J Paul Getty Trust" and open

124
00:06:37,433 --> 00:06:39,400
it up so you can see what a sample

125
00:06:39,400 --> 00:06:44,333
record looks like. First of all note

126
00:06:44,333 --> 00:06:46,800
it's giving you the direct link to the

127
00:06:46,800 --> 00:06:48,866
website. This is one that has a

128
00:06:48,866 --> 00:06:52,500
website. It's giving you no it's not

129
00:06:52,500 --> 00:06:55,066
giving you a contact person. But it's

130
00:06:55,066 --> 00:06:57,200
letting you also email the record to

131
00:06:57,200 --> 00:06:59,633
yourself or print it so you have those

132
00:06:59,633 --> 00:07:01,866
options. It's giving you some background

133
00:07:01,866 --> 00:07:07,433
on mMr. Getty and his formation of the

134
00:07:07,433 --> 00:07:11,866
foundation. This is a really key part the

135
00:07:11,866 --> 00:07:13,633
next section to look at.

136
00:07:13,633 --> 00:07:17,466
Limitations. I always tell people look at

137
00:07:17,466 --> 00:07:19,400
that section first before you get too

138
00:07:19,400 --> 00:07:22,766
excited because that's going to be the

139
00:07:22,766 --> 00:07:25,766
area that either rules you in or out. And

140
00:07:25,766 --> 00:07:30,133
so this case you see that this is set up

141
00:07:30,133 --> 00:07:32,933
to support scholars in the art history

142
00:07:32,933 --> 00:07:35,900
field and internships to undergrads and

143
00:07:35,900 --> 00:07:37,766
graduate students interested in

144
00:07:37,766 --> 00:07:41,266
exploring career possibilities in the

145
00:07:41,266 --> 00:07:44,000
visual arts, museum professions, and art

146
00:07:44,000 --> 00:07:46,400
history. I presume I'm getting this

147
00:07:46,400 --> 00:07:50,433
because they assume that museum

148
00:07:50,433 --> 00:07:54,266
curatorial work is somehow related to

149
00:07:54,266 --> 00:07:57,466
social sciences? I would have thought it

150
00:07:57,466 --> 00:07:59,000
would have shown up in the humanities

151
00:07:59,000 --> 00:08:01,833
more so than social sciences but here

152
00:08:01,833 --> 00:08:05,666
you have it. But I'll keep reading and

153
00:08:05,666 --> 00:08:07,866
one of the things I want to point out

154
00:08:07,866 --> 00:08:09,666
you'll see that they have several

155
00:08:09,666 --> 00:08:13,900
different program areas and you'll need

156
00:08:13,900 --> 00:08:15,666
to read through the various program

157
00:08:15,666 --> 00:08:18,066
areas to find out which one of those

158
00:08:18,066 --> 00:08:22,700
programs pertains to your needs. They can

159
00:08:22,700 --> 00:08:26,033
be very different. So do look through

160
00:08:26,033 --> 00:08:30,966
them and see what you can find. So there

161
00:08:30,966 --> 00:08:34,500
are a fair number of ones here. They do

162
00:08:34,500 --> 00:08:37,566
give funds for you to do research at

163
00:08:37,566 --> 00:08:41,333
their library, they give funds for you to

164
00:08:41,333 --> 00:08:46,333
be a guest scholar, etc. Then you'll see

165
00:08:46,333 --> 00:08:47,866
they have some multicultural

166
00:08:47,866 --> 00:08:50,366
undergraduate internships, so there's a

167
00:08:50,366 --> 00:08:54,333
quite a few things here. And then if this

168
00:08:54,333 --> 00:08:57,966
were one that you were interested in you

169
00:08:57,966 --> 00:09:00,333
add it to your list of potential funding

170
00:09:00,333 --> 00:09:03,233
places and then move on and identify

171
00:09:03,233 --> 00:09:05,633
some more and then you would come back

172
00:09:05,633 --> 00:09:09,366
and do a little bit more research on

173
00:09:09,366 --> 00:09:12,466
this area. A couple of tips just to go

174
00:09:12,466 --> 00:09:18,066
back to the main search. Try playing

175
00:09:18,066 --> 00:09:19,933
around with different types of searches.

176
00:09:19,933 --> 00:09:23,500
So I did "Fields of Interest" and "Type of

177
00:09:23,500 --> 00:09:28,033
Support". You can also try just doing a

178
00:09:28,033 --> 00:09:30,233
search on "Type of Support". Like if you're

179
00:09:30,233 --> 00:09:32,033
looking for dissertation support I

180
00:09:32,033 --> 00:09:34,933
believe that's a category. And then once

181
00:09:34,933 --> 00:09:38,166
you get results back you can use filters

182
00:09:38,166 --> 00:09:40,566
that you get on the left-hand side of

183
00:09:40,566 --> 00:09:44,500
the screen to narrow your search. If you

184
00:09:44,500 --> 00:09:48,366
are looking for funding to attend a

185
00:09:48,366 --> 00:09:51,366
particular school you can also use the

186
00:09:51,366 --> 00:09:55,300
"School Name Index" and see if you know

187
00:09:55,300 --> 00:09:57,700
the school that you are applying to

188
00:09:57,700 --> 00:10:01,366
comes up there. And you're also welcome

189
00:10:01,366 --> 00:10:05,600
to try your own keywords. So if you want

190
00:10:05,600 --> 00:10:07,300
to see if there's anything in here that

191
00:10:07,300 --> 00:10:10,766
mentions a very specific field of study

192
00:10:10,766 --> 00:10:13,600
that would be the place to put it in and

193
00:10:13,600 --> 00:10:16,266
see if it comes up. But generally I would

194
00:10:16,266 --> 00:10:19,366
encourage you try to think broadly, okay?

195
00:10:19,366 --> 00:10:21,966
That's the most important thing here. Try

196
00:10:21,966 --> 00:10:24,433
to take your topic and think of what

197
00:10:24,433 --> 00:10:29,733
broad categories could it fall into.

198
00:10:29,733 --> 00:10:33,366
So how about if I give you a minute to

199
00:10:33,366 --> 00:10:37,366
go ahead and try a search of your own. [Written title: Pause video and perform your own practice search in the Foundation Grants for Individuals database. You must be connected to a hard-wired computer in Morris Library.]

200
00:10:37,366 --> 00:10:43,866
and let's see what happens. [Written title: Pause video and perform your own practice search in the Foundation Grants for Individuals database. You must be connected to a hard-wired computer in Morris Library.]

201
00:10:43,866 --> 00:10:47,300
Alrighty so let us now go back to the

202
00:10:47,300 --> 00:10:51,900
tab that has the Research Guide

203
00:10:51,900 --> 00:10:55,133
"Foundations and Grants" and let us now go

204
00:10:55,133 --> 00:10:58,100
down to databases and this time we're

205
00:10:58,100 --> 00:10:59,666
going to go into the Foundation

206
00:10:59,666 --> 00:11:04,633
Directory Online Professional. And

207
00:11:04,633 --> 00:11:09,000
connect. The steps for getting into

208
00:11:09,000 --> 00:11:12,766
this database I have outlined on the

209
00:11:12,766 --> 00:11:14,400
yellow sheet that I gave you. [Direction to download Yellow Sheet PDF linked below this video on it's home webpage.]

210
00:11:14,400 --> 00:11:17,133
So this is a little bit more [Direction to download Yellow Sheet PDF linked below this video on it's home webpage.]

211
00:11:17,133 --> 00:11:19,700
comprehensive data. This comes from the

212
00:11:19,700 --> 00:11:21,866
vendor. They're a little bit wordier than

213
00:11:21,866 --> 00:11:27,633
I am. So but it will help you. One thing

214
00:11:27,633 --> 00:11:29,933
just to point out on this handout that I

215

00:11:29,933 --> 00:11:36,033
gave you. On page three, there's a section

216
00:11:36,033 --> 00:11:39,300
here on saving your results. You can't

217
00:11:39,300 --> 00:11:44,300
really save your results. Actually

218
00:11:44,300 --> 00:11:48,066
it's it's step it's 11 step 11 that you

219
00:11:48,066 --> 00:11:50,533
can't do. You can save your results

220
00:11:50,533 --> 00:11:53,300
outside of the Foundation Directory by

221
00:11:53,300 --> 00:11:55,766
downloading them to an Excel spreadsheet

222
00:11:55,766 --> 00:11:59,233
or saving the descriptions as PDFs but

223
00:11:59,233 --> 00:12:01,733
you can't save it in the database. That's

224
00:12:01,733 --> 00:12:04,266
for individual subscribers only. So just

225
00:12:04,266 --> 00:12:09,066
cross out number 11 and number 12 on

226
00:12:09,066 --> 00:12:13,533
those steps. They just don't pertain.

227

00:12:13,533 --> 00:12:17,566
Everything else should work and

228
00:12:17,566 --> 00:12:21,233
hopefully you have this big search box

229
00:12:21,233 --> 00:12:25,166
on your screen. And what this database is

230
00:12:25,166 --> 00:12:27,100
trying to encourage is for you to use

231
00:12:27,100 --> 00:12:30,100
your own language about your research

232
00:12:30,100 --> 00:12:33,466
and see how it works out. They try to

233
00:12:33,466 --> 00:12:35,900
translate it into their search terms.

234
00:12:35,900 --> 00:12:39,200
Sometimes it works sometimes it doesn't.

235
00:12:39,200 --> 00:12:42,433
So we'll take a look at that. First of

236
00:12:42,433 --> 00:12:46,766
all notice that if you want you have the

237
00:12:46,766 --> 00:12:50,500
opportunity to uncheck US Federal

238
00:12:50,500 --> 00:12:54,433
Funders. That would probably be my

239

00:12:54,433 --> 00:12:56,933
recommendation. Because I think COS

240
00:12:56,933 --> 00:13:00,266
Pivot does a much better job of giving

241
00:13:00,266 --> 00:13:04,066
you federal funders. But for now I'll

242
00:13:04,066 --> 00:13:06,200
leave it in here so that if I can see a

243
00:13:06,200 --> 00:13:08,800
record I'll show you what it looks like.

244
00:13:08,800 --> 00:13:12,266
But in general I would say take those

245
00:13:12,266 --> 00:13:15,166
out of your search. So let's suppose that

246
00:13:15,166 --> 00:13:21,466
I am interested in looking at a project

247
00:13:21,466 --> 00:13:27,400
dealing with slavery in the U.S. So I

248
00:13:27,400 --> 00:13:30,666
might do something, again trying to put

249
00:13:30,666 --> 00:13:34,200
it in my own language. "history of slavery

250
00:13:34,200 --> 00:13:38,333
in the United States". But you'll notice

251

00:13:38,333 --> 00:13:41,333
that it took my terms and it translated

252
00:13:41,333 --> 00:13:45,466
it to: Black studies, History, in the

253
00:13:45,466 --> 00:13:49,766
United States. So that's pretty good. Not

254
00:13:49,766 --> 00:13:53,733
so bad. It's giving me 1,900 funders

255
00:13:53,733 --> 00:13:56,733
though. So that's that's a lot. I don't

256
00:13:56,733 --> 00:13:58,066
think I want to look through that many.

257
00:13:58,066 --> 00:14:03,500
So I'm going to filter this. And you'll

258
00:14:03,500 --> 00:14:05,700
see there's an option for Advanced

259
00:14:05,700 --> 00:14:08,933
Search and Filters. You're going to use

260
00:14:08,933 --> 00:14:11,900
that. And that's also where you can

261
00:14:11,900 --> 00:14:14,500
correct the language. So if it brings

262
00:14:14,500 --> 00:14:16,966
back a topic that doesn't look at all

263

00:14:16,966 --> 00:14:20,133
like what you wanted you're going to go

264
00:14:20,133 --> 00:14:22,700
in and change it. And you have the

265
00:14:22,700 --> 00:14:26,000
opportunity to correct here. So you see

266
00:14:26,000 --> 00:14:28,233
it's actually giving me general history

267
00:14:28,233 --> 00:14:31,233
and it's also giving me black studies.

268
00:14:31,233 --> 00:14:35,000
One possible way for me to fix this

269
00:14:35,000 --> 00:14:38,666
search, because I had 1900, is maybe I can

270
00:14:38,666 --> 00:14:41,033
look at Black Studies first and see what

271
00:14:41,033 --> 00:14:43,166
happens. In which case I would just click

272
00:14:43,166 --> 00:14:48,833
the "X" off of History and take it out. But

273
00:14:48,833 --> 00:14:50,600
for now I'll just go ahead and leave

274
00:14:50,600 --> 00:14:53,900
history in. I'll just put it back in. And

275

00:14:53,900 --> 00:14:55,833
you see in this one when you start

276
00:14:55,833 --> 00:14:59,666
typing it suggests terms for you and it

277
00:14:59,666 --> 00:15:01,900
also gives you a hierarchy that you can

278
00:15:01,900 --> 00:15:06,500
use. So I'll leave those two in. Population

279
00:15:06,500 --> 00:15:09,000
served is another way to winnow your

280
00:15:09,000 --> 00:15:09,733
search.

281
00:15:09,733 --> 00:15:14,266
And I selected a population that I

282
00:15:14,266 --> 00:15:16,533
thought might interest the rest of you

283
00:15:16,533 --> 00:15:17,400
as well.

284
00:15:17,400 --> 00:15:21,200
Academics. That's who's going to benefit

285
00:15:21,200 --> 00:15:23,666
from this project. There are additional

286
00:15:23,666 --> 00:15:27,500
filters too, and if I need to I can add

287

00:15:27,500 --> 00:15:31,333
some of those additional filters. Like in

288
00:15:31,333 --> 00:15:33,500
the other project I mean in the other

289
00:15:33,500 --> 00:15:35,600
database they use the term "Type of

290
00:15:35,600 --> 00:15:39,200
Support" this database does the same kind

291
00:15:39,200 --> 00:15:41,333
of search but it calls it "Support

292
00:15:41,333 --> 00:15:44,866
Strategy". So maybe I want to add research

293
00:15:44,866 --> 00:15:47,400
here. Again, because I'm trying to winnow

294
00:15:47,400 --> 00:15:49,533
my search down. I'm not trying to look at

295
00:15:49,533 --> 00:15:52,900
1900. So I'm going to put "research" in

296
00:15:52,900 --> 00:15:56,366
here. And now I'm ready to go ahead and

297
00:15:56,366 --> 00:15:58,300
search. And you'll notice there's also

298
00:15:58,300 --> 00:16:01,166
Geographic focus. That could also be

299

00:16:01,166 --> 00:16:03,700
another way that I tried to winnow my

300
00:16:03,700 --> 00:16:06,533
search down. You can try Delaware I've

301
00:16:06,533 --> 00:16:08,666
noticed that Delaware tends not to bring

302
00:16:08,666 --> 00:16:10,666
back very much. You can try Delaware

303
00:16:10,666 --> 00:16:14,366
Valley. You can also try, believe it or

304
00:16:14,366 --> 00:16:17,600
not, they have us in the South. The South

305
00:16:17,600 --> 00:16:22,633
Atlantic region so yeah all of those but

306
00:16:22,633 --> 00:16:27,100
now I have 51 grantmakers who've made

307
00:16:27,100 --> 00:16:31,166
222 grants that may pertain to my

308
00:16:31,166 --> 00:16:34,666
topic, and ninety-one recipients.

309
00:16:34,666 --> 00:16:37,266
Really you can jump into any of those

310
00:16:37,266 --> 00:16:40,400
pots and take a look and see what kind

311

00:16:40,400 --> 00:16:42,500
of funding is going on.

312
00:16:42,500 --> 00:16:45,766
You have the funder, the specifics of the

313
00:16:45,766 --> 00:16:48,800
grant, the recipients of grants. We'll

314
00:16:48,800 --> 00:16:51,733
ignore the tax forms it's not April yet.

315
00:16:51,733 --> 00:16:54,266
We don't want to deal with tax forms. I

316
00:16:54,266 --> 00:16:57,000
usually encourage people to start with

317
00:16:57,000 --> 00:17:00,800
grant makers and do that first. So I

318
00:17:00,800 --> 00:17:04,533
clicked on grant makers. It's showing me

319
00:17:04,533 --> 00:17:07,633
the first five or so. But then it's

320
00:17:07,633 --> 00:17:10,566
giving me an opportunity to view all 51

321
00:17:10,566 --> 00:17:13,366
if I want to. I'm not going to do that

322
00:17:13,366 --> 00:17:15,666
now in the interest of time but you know

323

00:17:15,666 --> 00:17:17,900
it works. I'm just going to click on one

324
00:17:17,900 --> 00:17:20,200
funder that I'm familiar with the "Andrew

325
00:17:20,200 --> 00:17:22,600
Mellon Foundation.

326
00:17:22,600 --> 00:17:25,766
Keep in mind it's showing me it's going

327
00:17:25,766 --> 00:17:27,766
to show me grants that pertain to either

328
00:17:27,766 --> 00:17:31,133
Black Studies or History. But when I

329
00:17:31,133 --> 00:17:33,300
click on it right away they give me this

330
00:17:33,300 --> 00:17:37,400
big picture that tells me a little bit

331
00:17:37,400 --> 00:17:40,033
about their funding patterns. The general

332
00:17:40,033 --> 00:17:44,866
areas that they're funding over here

333
00:17:44,866 --> 00:17:49,200
where the money's going and looks really

334
00:17:49,200 --> 00:17:50,966
dark over here so that's a good thing.

335

00:17:50,966 --> 00:17:54,566
And then the size of the grants. So you

336
00:17:54,566 --> 00:17:56,700
can use all of that to kind of gauge

337
00:17:56,700 --> 00:17:59,666
whether or not this is someone you want

338
00:17:59,666 --> 00:18:02,266
to approach. And you're going to keep

339
00:18:02,266 --> 00:18:06,300
reading and you'll notice down here in

340
00:18:06,300 --> 00:18:10,066
the this sidebar here just basically

341
00:18:10,066 --> 00:18:13,233
lets you jump down the page. And you'll

342
00:18:13,233 --> 00:18:16,800
notice that "Giving Limitations" is thrown

343
00:18:16,800 --> 00:18:19,166
in with "Applications" so let's go look

344
00:18:19,166 --> 00:18:23,133
there first. I'm a firm believer of

345
00:18:23,133 --> 00:18:26,500
checking that "Giving Limitations" first.

346
00:18:26,500 --> 00:18:29,700
So I have you can also just scroll down

347

00:18:29,700 --> 00:18:31,400
the page and you'll see they've kind of

348
00:18:31,400 --> 00:18:32,800
put it in a gray area.

349
00:18:32,800 --> 00:18:36,333
And they're telling you that they

350
00:18:36,333 --> 00:18:39,966
give nationally throughout the U.S. But

351
00:18:39,966 --> 00:18:42,066
some international giving in South

352
00:18:42,066 --> 00:18:45,300
Africa. No support for local

353
00:18:45,300 --> 00:18:48,833
organizations only. And no grants to

354
00:18:48,833 --> 00:18:51,433
individuals. So if you're looking as an

355
00:18:51,433 --> 00:18:54,066
individual - first of all this is just not

356
00:18:54,066 --> 00:18:56,766
a great database for individual funding.

357
00:18:56,766 --> 00:18:58,366
(Thank you for coming.)

358
00:18:58,366 --> 00:19:03,766
So other than that you're going to be

359

00:19:03,766 --> 00:19:06,200
searching pretty much like you did in

360
00:19:06,200 --> 00:19:09,600
the other database. You're going to put

361
00:19:09,600 --> 00:19:13,733
in terms that pertain to your area of

362
00:19:13,733 --> 00:19:18,400
research. If you get way too many you're

363
00:19:18,400 --> 00:19:20,300
going to use the "Type of Support" to

364
00:19:20,300 --> 00:19:23,100
winnow down your results. And you're

365
00:19:23,100 --> 00:19:25,033
going to keep an eye on the Geographic

366
00:19:25,033 --> 00:19:26,666
Area that's served.

367
00:19:26,666 --> 00:19:32,333
So why don't you go ahead and try a

368
00:19:32,333 --> 00:19:39,366
search and see what happens. [Written title: Pause video and perform your own practice search in the
Foundation Directory Online database.]

369
00:19:39,366 --> 00:19:41,900
the next database that I'm going to show

370
00:19:41,900 --> 00:19:45,233
you takes a different approach instead

371
00:19:45,233 --> 00:19:47,200
of putting in one record for an

372
00:19:47,200 --> 00:19:51,833
organization it puts in one record per

373
00:19:51,833 --> 00:19:55,500
program area. So for this one

374
00:19:55,500 --> 00:19:57,700
organization instead of having one

375
00:19:57,700 --> 00:20:02,333
record we would have 17 records.

376
00:20:02,333 --> 00:20:06,400
In the other database it's very much

377
00:20:06,400 --> 00:20:10,633
tied to the application cycle. When the

378
00:20:10,633 --> 00:20:15,666
deadline for the program applications

379
00:20:15,666 --> 00:20:18,533
when the deadline passes they pull the

380
00:20:18,533 --> 00:20:21,400
record out of the database so whenever

381
00:20:21,400 --> 00:20:23,566
you search the database you're only

382
00:20:23,566 --> 00:20:27,600
seeing what you can apply for right now.

383
00:20:27,600 --> 00:20:31,300
Tthis database however its permanent

384
00:20:31,300 --> 00:20:32,700
record. As long as they're in the

385
00:20:32,700 --> 00:20:34,600
business of giving you're going to find

386
00:20:34,600 --> 00:20:37,600
a record in here for the this database.

387
00:20:37,600 --> 00:20:39,866
So the other database has a lot of

388
00:20:39,866 --> 00:20:43,400
movement in and out and because of that

389
00:20:43,400 --> 00:20:47,400
they allow you to set up accounts, run a

390
00:20:47,400 --> 00:20:49,733
search, save it, and then when a new

391
00:20:49,733 --> 00:20:52,600
opportunity comes to the database that

392
00:20:52,600 --> 00:20:55,266
matches your search they let you know of

393
00:20:55,266 --> 00:20:58,800
that. Either via an email that you can

394
00:20:58,800 --> 00:21:02,233
elect to receive one email a week, or you

395
00:21:02,233 --> 00:21:04,966
can check on their database. So let's go

396
00:21:04,966 --> 00:21:08,266
and I'll show you how this looks. So

397
00:21:08,266 --> 00:21:10,900
we're going back to the Research Guide

398
00:21:10,900 --> 00:21:14,766
on that tab. And if you've lost that I

399
00:21:14,766 --> 00:21:16,966
think you have the URL it's on the

400
00:21:16,966 --> 00:21:20,233
agenda that I gave you down in this

401
00:21:20,233 --> 00:21:24,066
search box. It's the first link. And we're

402
00:21:24,066 --> 00:21:29,166
going in to Pivot. And Pivot is the

403
00:21:29,166 --> 00:21:31,300
directions are on the green sheet. It's

404
00:21:31,300 --> 00:21:33,200
the other way you can get to this

405
00:21:33,200 --> 00:21:36,766
database the address is there. And we're

406
00:21:36,766 --> 00:21:42,100
going to connect. So first off my

407
00:21:42,100 --> 00:21:44,000
recommendation if you're looking for

408
00:21:44,000 --> 00:21:47,433
funding on an ongoing basis by all means

409
00:21:47,433 --> 00:21:50,633
create a login and password for the

410
00:21:50,633 --> 00:21:51,600
database.

411
00:21:51,600 --> 00:21:54,600
And you can do that just by going up

412
00:21:54,600 --> 00:21:58,200
here and signing up. And I'm not going to

413
00:21:58,200 --> 00:21:59,966
take you through the steps but if you

414
00:21:59,966 --> 00:22:01,900
want to do that you can do that. It's

415
00:22:01,900 --> 00:22:04,066
very simple. They'll ask you to come

416
00:22:04,066 --> 00:22:06,200
they'll send you an email confirmation

417
00:22:06,200 --> 00:22:08,900
and once you click on the confirmation

418
00:22:08,900 --> 00:22:12,400
you'll have your password set up and

419
00:22:12,400 --> 00:22:17,100
your own account. And then you can log in

420
00:22:17,100 --> 00:22:21,033
from home or wherever and come to the

421
00:22:21,033 --> 00:22:25,333
database and you will be able to go to

422
00:22:25,333 --> 00:22:28,800
to your home page which

423
00:22:28,800 --> 00:22:31,133
is that little house, and that's where

424
00:22:31,133 --> 00:22:34,166
you'll see your saved search and any

425
00:22:34,166 --> 00:22:37,633
other items that you choose to track or

426
00:22:37,633 --> 00:22:41,433
save. Which you can all do. For now what

427
00:22:41,433 --> 00:22:42,633
we're going to do is click on this

428
00:22:42,633 --> 00:22:47,733
"Funding" link right here at the top and

429
00:22:47,733 --> 00:22:50,433
again you'll see we have an "Advanced

430
00:22:50,433 --> 00:22:55,800
Search" option I would use that. And the

431
00:22:55,800 --> 00:22:57,566
same techniques that you used in the

432
00:22:57,566 --> 00:22:59,733
other databases are pretty much what

433
00:22:59,733 --> 00:23:02,533
you're going to use here. One difference

434
00:23:02,533 --> 00:23:05,833
is this these top boxes allow you to do

435
00:23:05,833 --> 00:23:08,033
your own keyword searching, your very

436
00:23:08,033 --> 00:23:10,500
specific terms. This would be a good

437
00:23:10,500 --> 00:23:13,000
place to put those. So if you wanted to

438
00:23:13,000 --> 00:23:15,300
put in amputees this would be a great

439
00:23:15,300 --> 00:23:19,966
place to put that in. Further down you

440
00:23:19,966 --> 00:23:22,400
can use controlled vocabulary. They're

441
00:23:22,400 --> 00:23:26,300
index terms. I would recommend doing one

442
00:23:26,300 --> 00:23:28,833
or the other but not using these top

443
00:23:28,833 --> 00:23:32,400
boxes and also the keyword browser down

444
00:23:32,400 --> 00:23:34,500
at the bottom which has your other index

445
00:23:34,500 --> 00:23:39,500
terms. Pick one method of doing it. If I

446
00:23:39,500 --> 00:23:42,000
click on open up the little arrow next

447
00:23:42,000 --> 00:23:44,333
to keyword you'll see it opens up a

448
00:23:44,333 --> 00:23:47,000
search box and that's where I can then

449
00:23:47,000 --> 00:23:49,533
begin to search for keywords and pick

450
00:23:49,533 --> 00:23:53,633
them. So in this case I'm going to use a

451
00:23:53,633 --> 00:23:56,466
disease. I'm just going to type in

452
00:23:56,466 --> 00:24:02,666
"Parkinsons" and you'll see that it's

453
00:24:02,666 --> 00:24:04,833
giving me a hierarchy.

454
00:24:04,833 --> 00:24:07,666
It's telling me that in the "Health

455
00:24:07,666 --> 00:24:10,100
and Medicine" category there's a

456
00:24:10,100 --> 00:24:12,800
subcategory for "Diseases", and then

457
00:24:12,800 --> 00:24:16,333
there's a subcategory for "Parkinsons". So

458
00:24:16,333 --> 00:24:18,033
I'll just click that. But now I know

459
00:24:18,033 --> 00:24:21,200
where to browse for additional terms. So

460
00:24:21,200 --> 00:24:22,666
you'll see there's a link here for

461
00:24:22,666 --> 00:24:27,666
browse. (Right there.) That opens up the

462
00:24:27,666 --> 00:24:29,633
keyword browser. I'm going to click on

463
00:24:29,633 --> 00:24:33,866
that and now I see all the top levels.

464
00:24:33,866 --> 00:24:37,466
I know that Health and Medicine

465
00:24:37,466 --> 00:24:40,800
is the category where my Parkinsons

466
00:24:40,800 --> 00:24:45,533
Disease lives so if I want to include

467
00:24:45,533 --> 00:24:50,933
grants that don't

468
00:24:50,933 --> 00:24:54,900
specify categories of health, that are

469
00:24:54,900 --> 00:24:58,300
very general, I would click on this and

470
00:24:58,300 --> 00:25:02,300
add it to my search. And if I click on

471
00:25:02,300 --> 00:25:05,166
this very faint arrow underneath it

472
00:25:05,166 --> 00:25:07,766
opens up the category. I can see all the

473
00:25:07,766 --> 00:25:09,866
various things that fall under Health

474
00:25:09,866 --> 00:25:12,500
and Medicine. And I know now that

475
00:25:12,500 --> 00:25:15,566
Parkinsons is in the "Disease" category.

476
00:25:15,566 --> 00:25:18,766
So maybe I want to search also very

477
00:25:18,766 --> 00:25:21,733
generally for diseases at the top level.

478
00:25:21,733 --> 00:25:25,100
So again you want to either use the

479
00:25:25,100 --> 00:25:29,233
keywords down here or you use your own

480
00:25:29,233 --> 00:25:33,066
language up here. Either one. As I said

481
00:25:33,066 --> 00:25:35,400
I've found that doing both the logic

482
00:25:35,400 --> 00:25:37,333
gets a little confused. So I don't

483
00:25:37,333 --> 00:25:39,800
recommend that. Other things that are

484
00:25:39,800 --> 00:25:42,000
important to add in this database are

485
00:25:42,000 --> 00:25:46,133
your "Activity Location" and in this case

486
00:25:46,133 --> 00:25:48,233
you're going to want to you can put in

487
00:25:48,233 --> 00:25:53,433
Delaware. Just start typing and you'll

488
00:25:53,433 --> 00:25:57,133
get that to pop up. You're probably going

489
00:25:57,133 --> 00:25:59,000
to need to put in United States though.

490
00:25:59,000 --> 00:26:03,600
Very few things come up for Delaware. So

491
00:26:03,600 --> 00:26:06,500
that that's the next best category for

492
00:26:06,500 --> 00:26:12,833
United States. Now, a couple of important

493
00:26:12,833 --> 00:26:15,133
points to to make both about the

494
00:26:15,133 --> 00:26:17,066
Activity Location and the

495
00:26:17,066 --> 00:26:20,500
keyword browser. You'll notice that once

496
00:26:20,500 --> 00:26:23,266
I put in terms it started automatically

497
00:26:23,266 --> 00:26:26,233
checking things for me. So it

498
00:26:26,233 --> 00:26:29,266
automatically checked "Sub-entities" and

499
00:26:29,266 --> 00:26:32,366
if I leave this set up the way it is now

500
00:26:32,366 --> 00:26:36,000
this is telling the system to search all

501
00:26:36,000 --> 00:26:38,666
of the sub-entities of the United States.

502
00:26:38,666 --> 00:26:41,700
So it's going to give me all 50 states. I

503
00:26:41,700 --> 00:26:44,233
don't want that I want Delaware and then

504
00:26:44,233 --> 00:26:46,266
I want things that generally are good

505
00:26:46,266 --> 00:26:48,366
for the United States. So I'm

506
00:26:48,366 --> 00:26:52,600
going to uncheck "Sub-entities". "Super-

507
00:26:52,600 --> 00:26:54,866
entities" gets me North America and

508
00:26:54,866 --> 00:26:59,366
that's not generally a problem. The other

509
00:26:59,366 --> 00:27:01,766
thing that it automatically checked for

510
00:27:01,766 --> 00:27:07,133
me is "Keyword". And you'll see it is it

511
00:27:07,133 --> 00:27:11,166
has checked "Explode". And perhaps you'll

512
00:27:11,166 --> 00:27:13,500
recall I had a hierarchy of terms. First

513
00:27:13,500 --> 00:27:16,133
I had Health & Medicine, which had a lot

514
00:27:16,133 --> 00:27:18,766
of different categories underneath. Then

515
00:27:18,766 --> 00:27:22,633
I had "Diseases", which also had a lot of

516
00:27:22,633 --> 00:27:27,066
categories. If I left this "Explode"

517
00:27:27,066 --> 00:27:30,333
checked, this tells it to give me every

518
00:27:30,333 --> 00:27:32,533
single category under Health and

519
00:27:32,533 --> 00:27:35,833
Medicine. So I would get cancer, I would

520
00:27:35,833 --> 00:27:40,666
get blindness, all everything. So the

521
00:27:40,666 --> 00:27:44,133
moral of the story is uncheck "Explode".

522
00:27:44,133 --> 00:27:49,233
Unless say you are working for a

523
00:27:49,233 --> 00:27:52,500
specific department. And you want to see

524
00:27:52,500 --> 00:27:54,900
everything under that department, like

525
00:27:54,900 --> 00:27:58,200
you might want to. You can find the level

526
00:27:58,200 --> 00:28:01,900
for the department - agriculture, whatever -

527
00:28:01,900 --> 00:28:04,866
and then "Explode" and look at everything

528
00:28:04,866 --> 00:28:06,866
under there. And then you can parse it

529
00:28:06,866 --> 00:28:10,166
out to the faculty in that program. But

530
00:28:10,166 --> 00:28:15,033
generally as an individual researcher you

531
00:28:15,033 --> 00:28:21,133
don't want to "Explode". And I made a point

532
00:28:21,133 --> 00:28:23,766
of highlighting on the green sheet I

533
00:28:23,766 --> 00:28:26,700
gave you to be sure to uncheck "Explode"

534
00:28:26,700 --> 00:28:29,400
and uncheck "Sub-entities". Because that

535
00:28:29,400 --> 00:28:30,733
will really throw off your

536
00:28:30,733 --> 00:28:35,133
search. "Applicant Type" is important and

537
00:28:35,133 --> 00:28:38,300
this is where you check the type of

538
00:28:38,300 --> 00:28:40,100
institution you are or if you're an

539
00:28:40,100 --> 00:28:42,433
individual. And you'll see if you're an

540
00:28:42,433 --> 00:28:44,633
individual you have a lot of options.

541
00:28:44,633 --> 00:28:46,933
I recommend searching them one at a time.

542
00:28:46,933 --> 00:28:50,500
I found that sometimes the the results

543
00:28:50,500 --> 00:28:52,100
are a little odd if you try to search

544
00:28:52,100 --> 00:28:54,533
them all at once. You're welcome to try

545
00:28:54,533 --> 00:28:58,333
but that's been my experience. And you

546
00:28:58,333 --> 00:29:00,866
can run several searches different

547
00:29:00,866 --> 00:29:02,600
searches and you can save different

548
00:29:02,600 --> 00:29:06,733
searches. You can save more than twenty

549
00:29:06,733 --> 00:29:09,133
or so and you'll see the results from

550
00:29:09,133 --> 00:29:10,133
each search.

551
00:29:10,133 --> 00:29:12,300
I'd say until you get a good feel for

552
00:29:12,300 --> 00:29:16,800
this database it helps to maybe instead

553
00:29:16,800 --> 00:29:19,033
of like doing this one search where I

554
00:29:19,033 --> 00:29:23,000
have am combining Parkinsons and Health

555
00:29:23,000 --> 00:29:25,833
and Medicine, I'm combining specific &

556
00:29:25,833 --> 00:29:27,933
general... Maybe try doing a very

557
00:29:27,933 --> 00:29:30,566
specific search and saving it, and then

558
00:29:30,566 --> 00:29:32,766
also try and doing a general search and

559
00:29:32,766 --> 00:29:34,800
saving it. And then you can begin to

560
00:29:34,800 --> 00:29:37,000
watch the results as they come in and

561
00:29:37,000 --> 00:29:39,200
get a feel for which one works best. And

562
00:29:39,200 --> 00:29:43,133
definitely you'll want to do a separate

563
00:29:43,133 --> 00:29:45,533
search that uses your own keyword like

564
00:29:45,533 --> 00:29:47,833
amputees for example. You would do that

565
00:29:47,833 --> 00:29:50,333
as its own search and save it all by

566
00:29:50,333 --> 00:29:54,633
itself. Get used to as I

567
00:29:54,633 --> 00:29:57,100
said mixing and matching your terms and

568
00:29:57,100 --> 00:30:02,000
saving your searches. And a couple other

569
00:30:02,000 --> 00:30:05,166
things to mention - there are also

570
00:30:05,166 --> 00:30:10,000
categories here for minority status, for

571
00:30:10,000 --> 00:30:13,366
women, persons with disabilities. Again

572
00:30:13,366 --> 00:30:15,633
this would be for the applicant though

573
00:30:15,633 --> 00:30:19,000
not the the parties that you're trying

574
00:30:19,000 --> 00:30:21,466
to serve. Not your user

575
00:30:21,466 --> 00:30:25,666
population, it's you personally. In most

576
00:30:25,666 --> 00:30:27,533
cases if you're applying on behalf of

577
00:30:27,533 --> 00:30:30,066
the University you're checking academic

578
00:30:30,066 --> 00:30:34,800
institution. The other thing to keep in

579
00:30:34,800 --> 00:30:37,866
mind is citizenship. This is pre-selected

580
00:30:37,866 --> 00:30:41,733
at the very top you'll see that United

581
00:30:41,733 --> 00:30:42,266
States

582
00:30:42,266 --> 00:30:44,733
is selected, pre-selected. If you don't

583
00:30:44,733 --> 00:30:47,900
have citizenship or residency definitely

584
00:30:47,900 --> 00:30:51,566
uncheck this. And then go down to the

585
00:30:51,566 --> 00:30:53,866
area where there's citizenship or

586
00:30:53,866 --> 00:30:56,666
residency and pick the countries that

587
00:30:56,666 --> 00:30:58,433
pertain to you. You can definitely

588
00:30:58,433 --> 00:31:02,733
pick more than one if you have dual

589
00:31:02,733 --> 00:31:05,600
citizenship. And then you're ready

590
00:31:05,600 --> 00:31:10,100
to do your search. One other thing to

591
00:31:10,100 --> 00:31:12,233
point out - make sure you're not working

592
00:31:12,233 --> 00:31:14,633
in the gray area because this section of

593
00:31:14,633 --> 00:31:19,500
the record tells you what to exclude. So

594
00:31:19,500 --> 00:31:21,933
if you erroneously type your search

595
00:31:21,933 --> 00:31:25,366
terms down here it excludes it from your

596
00:31:25,366 --> 00:31:27,466
results. So you'll get everything but

597
00:31:27,466 --> 00:31:30,866
what you want. And then we're ready to

598
00:31:30,866 --> 00:31:33,733
search. You'll see you're getting your

599
00:31:33,733 --> 00:31:37,566
filters on the left-hand side so you can

600
00:31:37,566 --> 00:31:43,066
also filter by the "Type of Support".

601
00:31:43,066 --> 00:31:47,600
Research, travel, etc. And again you'll see

602
00:31:47,600 --> 00:31:49,733
you're getting a link back to the

603
00:31:49,733 --> 00:31:54,100
federal program and you're getting

604
00:31:54,100 --> 00:31:58,133
eligibility information about your grant

605
00:31:58,133 --> 00:32:03,133
size. Here's your eligibility. This is

606
00:32:03,133 --> 00:32:05,366
probably the most important place to

607
00:32:05,366 --> 00:32:07,166
read. That's the equivalent of the

608
00:32:07,166 --> 00:32:10,633
limitations and the other database. And

609
00:32:10,633 --> 00:32:12,733
be very careful to make sure that you

610
00:32:12,733 --> 00:32:14,633
have selected the right category because

611
00:32:14,633 --> 00:32:19,100
a lot of category for "Applicant Type".

612
00:32:19,100 --> 00:32:21,233
Because a lot of the grants that are in

613
00:32:21,233 --> 00:32:23,566
this database - federal grants - are

614
00:32:23,566 --> 00:32:26,400
designated for state governments. So you

615
00:32:26,400 --> 00:32:28,600
don't want to be looking at

616
00:32:28,600 --> 00:32:31,400
opportunities that only states can apply

617
00:32:31,400 --> 00:32:34,000
for. So make sure you've selected either

618
00:32:34,000 --> 00:32:37,533
"Academic Institution" or "Individual" as

619
00:32:37,533 --> 00:32:40,933
your "Type". After this it pretty much

620
00:32:40,933 --> 00:32:43,666
works just like the other database. You

621
00:32:43,666 --> 00:32:47,000
see the information. If it's something

622
00:32:47,000 --> 00:32:51,400
that you want to work on later you're

623
00:32:51,400 --> 00:32:53,333
not ready to work on it now you can

624
00:32:53,333 --> 00:32:55,333
track it.

625
00:32:55,333 --> 00:32:57,566
Once you've set up your account and then

626
00:32:57,566 --> 00:32:59,966
by clicking on track it puts it on your

627
00:32:59,966 --> 00:33:02,933
home page so you can log in. You can also

628
00:33:02,933 --> 00:33:06,600
share it with colleagues. And if

629
00:33:06,600 --> 00:33:08,266
you're going to start working on it now

630
00:33:08,266 --> 00:33:10,466
there's a folder called "Active" and you

631
00:33:10,466 --> 00:33:12,733
can put it in that active folder. If you

632
00:33:12,733 --> 00:33:16,800
want your profile included you need to

633
00:33:16,800 --> 00:33:20,333
go through the steps of uploading your

634
00:33:20,333 --> 00:33:22,933
profile. The first step is to create the

635
00:33:22,933 --> 00:33:27,466
account and then once you do that you

636
00:33:27,466 --> 00:33:31,266
will have an opportunity to go up to

637
00:33:31,266 --> 00:33:35,466
your login and go to your profile and

638
00:33:35,466 --> 00:33:39,366
make your profile more robust. And the

639
00:33:39,366 --> 00:33:41,066
best way to make your profile more

640
00:33:41,066 --> 00:33:46,233
robust is to upload a CV that has what

641
00:33:46,233 --> 00:33:50,633
your current research pertains to. You

642
00:33:50,633 --> 00:33:53,133
also have an opportunity to link to any

643
00:33:53,133 --> 00:33:57,666
webpages that display your publications.

644
00:33:57,666 --> 00:34:01,233
That's another good way of making your

645
00:34:01,233 --> 00:34:09,666
profile more robust. As I told you

646
00:34:09,666 --> 00:34:13,000
These grants are

647
00:34:13,000 --> 00:34:16,700
very deadline driven. So you'll see

648
00:34:16,700 --> 00:34:18,266
they're telling you the deadline for

649
00:34:18,266 --> 00:34:21,400
application. You can sort these by

650
00:34:21,400 --> 00:34:24,000
deadline. And they're sorted by relevance.

651
00:34:24,000 --> 00:34:26,400
But you can also sort them to see the

652
00:34:26,400 --> 00:34:30,800
soonest ones first. So that you can hit

653
00:34:30,800 --> 00:34:32,666
what's coming up on the radar very

654
00:34:32,666 --> 00:34:36,800
quickly. And that's basically what I

655
00:34:36,800 --> 00:34:38,366
needed to tell you about this database.

656
00:34:38,366 --> 00:34:40,600
Why don't you go ahead and give it a try.

657
00:34:40,600 --> 00:34:43,533
And see how it works for you. Especially

658
00:34:43,533 --> 00:34:45,566
that keyword browser, which can be a

659
00:34:45,566 --> 00:34:50,233
little tricky. [Written title: Pause video and perform your own practice search in the COS Pivot database.]

660
00:34:50,233 --> 00:34:53,433
A couple of other things I just wanted

661
00:34:53,433 --> 00:34:57,033
to mention. First of all when you're in

662
00:34:57,033 --> 00:35:01,466
the COS Pivot database you'll see that

663
00:35:01,466 --> 00:35:03,833
there's a category that says "Limited

664
00:35:03,833 --> 00:35:07,833
Submission ". If you come across a grant

665
00:35:07,833 --> 00:35:10,533
that you really like but it it requires

666
00:35:10,533 --> 00:35:13,500
"Limited Submission", that means that the

667
00:35:13,500 --> 00:35:16,000
funder is only willing to accept a

668
00:35:16,000 --> 00:35:18,166
certain number of applications from each

669
00:35:18,166 --> 00:35:21,233
institution and the institution has to

670
00:35:21,233 --> 00:35:24,500
decide who can apply for it. So in that

671
00:35:24,500 --> 00:35:28,366
case you would definitely want to

672
00:35:28,366 --> 00:35:31,600
contact the Research Office very early

673
00:35:31,600 --> 00:35:35,100
so that they can then begin to set up

674
00:35:35,100 --> 00:35:38,633
the process by which they determine who

675
00:35:38,633 --> 00:35:41,700
gets to apply for the grant. So I just

676
00:35:41,700 --> 00:35:43,433
wanted to point that out that that's

677
00:35:43,433 --> 00:35:47,166
what a "Limited Submission" is. The other

678
00:35:47,166 --> 00:35:50,500
thing too is I didn't mention it before

679
00:35:50,500 --> 00:35:54,500
but I wanted to mention it now. The

680
00:35:54,500 --> 00:35:59,533
Research Office does also coordinate

681
00:35:59,533 --> 00:36:04,800
internal grants that are available from

682
00:36:04,800 --> 00:36:08,900
the University. And this is where they

683
00:36:08,900 --> 00:36:11,000
are located. Just to back up, I went to

684
00:36:11,000 --> 00:36:13,700
the Research Office page. This is a

685
00:36:13,700 --> 00:36:16,266
Research Office page and on this side

686
00:36:16,266 --> 00:36:19,066
right hand side you'll see funding

687
00:36:19,066 --> 00:36:21,900
opportunities. And this is where you will

688
00:36:21,900 --> 00:36:25,500
see funding opportunities for faculty

689
00:36:25,500 --> 00:36:29,433
here at the University of Delaware. And

690
00:36:29,433 --> 00:36:31,766
you know you should keep your eye on

691
00:36:31,766 --> 00:36:34,800
those and make sure that you're not

692
00:36:34,800 --> 00:36:37,800
missing out on anything. For graduate

693
00:36:37,800 --> 00:36:41,600
students you'll want to keep an eye on

694
00:36:41,600 --> 00:36:43,466
the Graduate and Professional Education

695
00:36:43,466 --> 00:36:50,100
page. And this is where you can find out

696
00:36:50,100 --> 00:36:54,533
information about opportunities that are

697
00:36:54,533 --> 00:36:56,666
available for UD graduate students

698
00:36:56,666 --> 00:37:01,466
that are internal competition only. So by

699
00:37:01,466 --> 00:37:04,200
all means you want to exhaust

700
00:37:04,200 --> 00:37:08,000
your internal sources before you go

701
00:37:08,000 --> 00:37:11,400
beyond. So here you'll see there's

702
00:37:11,400 --> 00:37:14,800
University graduate competitive awards.

703
00:37:14,800 --> 00:37:18,066
Dissertation fellowships,

704
00:37:18,066 --> 00:37:21,866
scholars awards, etc. So you'll want to

705
00:37:21,866 --> 00:37:24,800
definitely exploit your local sources

706
00:37:24,800 --> 00:37:27,566
first. And again the links to both of

707
00:37:27,566 --> 00:37:31,366
those pages are on the Library Research

708
00:37:31,366 --> 00:37:34,033
Guide for Grants so feel free to explore

709
00:37:34,033 --> 00:37:36,700
those. If you have any questions

710
00:37:36,700 --> 00:37:39,566
please get back in touch. Thank you for

711
00:37:39,566 --> 00:37:42,232
hanging with me!
