

1

00:00:00,000 --> 00:00:03,700

2

00:00:03,700 --> 00:00:05,866

When searching for books on your topic

3

00:00:05,866 --> 00:00:09,600

head to DELCAT Discovery. Typing a full

4

00:00:09,600 --> 00:00:12,133

sentence like "How has social media

5

00:00:12,133 --> 00:00:14,300

changed the student college experience?",

6

00:00:14,300 --> 00:00:16,866

doesn't always return relevant results.

7

00:00:16,866 --> 00:00:19,733

Instead try to search for specific words

8

00:00:19,733 --> 00:00:22,500

or phrases that capture the main ideas

9

00:00:22,500 --> 00:00:26,433

of what you want to search. DELCAT

10

00:00:26,433 --> 00:00:29,066

Discovery contains not just books, but

11

00:00:29,066 --> 00:00:32,866

also DVDs, articles, ebooks, internet

12

00:00:32,866 --> 00:00:35,300

resources, and much more. If you're only

13

00:00:35,300 --> 00:00:37,533

interested in looking at one format type,

14

00:00:37,533 --> 00:00:40,200

such as books, it can be helpful to limit

15

00:00:40,200 --> 00:00:42,266

your search by clicking on the format

16

00:00:42,266 --> 00:00:46,466

facets. This will filter out all other

17

00:00:46,466 --> 00:00:49,166

types of sources. You're now only looking

18

00:00:49,166 --> 00:00:51,833

at books. There is one important thing to

19

00:00:51,833 --> 00:00:53,633

note when you're using DELCAT Discovery

20

00:00:53,633 --> 00:00:57,600

to look up either books or ebooks. DELCAT

21

00:00:57,600 --> 00:00:59,866

Discovery contains not only items

22

00:00:59,866 --> 00:01:02,466

from our library, but also items from

23

00:01:02,466 --> 00:01:05,000

libraries all around the world. Check to

24

00:01:05,000 --> 00:01:07,366

make sure that your book says University

25

00:01:07,366 --> 00:01:09,633

of Delaware Library on the result if you

26

00:01:09,633 --> 00:01:11,766

wish to find books that are held here at

27

00:01:11,766 --> 00:01:16,700

UD. If you see WorldCat Libraries noted

28

00:01:16,700 --> 00:01:18,700

on the result this indicates that

29

00:01:18,700 --> 00:01:20,766

another library in the system has this

30

00:01:20,766 --> 00:01:24,000

item but we here at UD do not. You can

31

00:01:24,000 --> 00:01:25,900

get books from other libraries by using

32

00:01:25,900 --> 00:01:29,100

Interlibrary Loan. We've talked about how

33

00:01:29,100 --> 00:01:30,966

to do a general search in DELCAT

34

00:01:30,966 --> 00:01:33,100

Discovery, but what if you already know

35

00:01:33,100 --> 00:01:34,733

exactly what book or author you're

36

00:01:34,733 --> 00:01:37,500

seeking? Simply type in the title or the

37

00:01:37,500 --> 00:01:39,866

full name of the author, and place that

38

00:01:39,866 --> 00:01:42,766

title or author name in quotation marks.

39

00:01:42,766 --> 00:01:47,600

You can also add TI= or AU=

40

00:01:47,600 --> 00:01:49,900

to the beginning of your search to

41

00:01:49,900 --> 00:01:51,666

specify that you're looking for a title

42

00:01:51,666 --> 00:01:55,500

or specific author. Here's the book with

43

00:01:55,500 --> 00:01:56,900

the exact title that we're looking for!

44

00:01:56,900 --> 00:01:59,633

Below it our articles about the book or

45

00:01:59,633 --> 00:02:02,133

which review this book in magazines or

46

00:02:02,133 --> 00:02:04,566

news sources. It looks like this book is

47

00:02:04,566 --> 00:02:08,366

available at the UD library. Let's take a

48

00:02:08,366 --> 00:02:10,133

closer look at our book by viewing the

49

00:02:10,133 --> 00:02:13,033

full record. You can often read a summary

50

00:02:13,033 --> 00:02:15,100

of the books content on this full record

51

00:02:15,100 --> 00:02:16,000

and view

52

00:02:16,000 --> 00:02:17,633

Table of Contents to see what

53

00:02:17,633 --> 00:02:21,266

specifically the book contains. The most

54

00:02:21,266 --> 00:02:23,266

important information for finding a book

55

00:02:23,266 --> 00:02:25,466

in the library is contained on the lower

56

00:02:25,466 --> 00:02:27,700

part of the page. Look for the word

57

00:02:27,700 --> 00:02:30,133

"Available", which indicates that the book

58

00:02:30,133 --> 00:02:32,500

is on the shelf. If the book has already

59

00:02:32,500 --> 00:02:34,500

been borrowed by someone, you will see a

60

00:02:34,500 --> 00:02:36,433

date here indicating when the book is

61

00:02:36,433 --> 00:02:40,266

expected to be returned. Next in order to

62

00:02:40,266 --> 00:02:42,066

find the book, you will need to record

63

00:02:42,066 --> 00:02:44,366

the Call Number. The Call Number is the

64

00:02:44,366 --> 00:02:46,633

book's address on the shelves. You will

65

00:02:46,633 --> 00:02:48,600

need to record the entire call number if

66

00:02:48,600 --> 00:02:52,333

you wish to retrieve this book.
