[Upbeat music]

2
00:00:04,700 --> 00:00:07,633
So far we've talked about using library

3
00:00:07,633 --> 00:00:10,766
databases to find articles. But you also

4
00:00:10,766 --> 00:00:12,566
need to know how to use DELCAT

5
00:00:12,566 --> 00:00:16,400
Discovery, the library catalog. Start on

6
00:00:16,400 --> 00:00:18,300
the library homepage, where you'll see

7
00:00:18,300 --> 00:00:21,033
the DELCAT Discovery icon highlighted.

8
00:00:21,033 --> 00:00:24,600
DELCAT will help you find books, DVDs,

9
00:00:24,600 --> 00:00:27,933
articles, and other materials. You can

10
00:00:27,933 --> 00:00:30,900
search by title or author, or you can do

11
00:00:30,900 --> 00:00:33,466
a keyword search just like we did in the

12
00:00:33,466 --> 00:00:36,666
databases. We'll do a keyword search for

13
00:00:36,666 --> 00:00:41,100
social media and politics. Your first

14
00:00:41,100 --> 00:00:43,166
results will often be books that are

15
00:00:43,166 --> 00:00:46,066
available through the UD library. Once

16
00:00:46,066 --> 00:00:49,000
you click on a title, look under: "Find a

17
00:00:49,000 --> 00:00:52,200
copy in the library". Check to see if the

18
00:00:52,200 --> 00:00:54,300
book is available, which means no one

19
00:00:54,300 --> 00:00:56,833
else has it checked out, and then record

20
00:00:56,833 --> 00:00:58,600
the Call Number - which will help you

21
00:00:58,600 --> 00:01:01,900
locate the book. To find a book, first

22
00:01:01,900 --> 00:01:04,133
look at the letter or letters at the

23
00:01:04,133 --> 00:01:06,566
beginning of the call number. Books are

24
00:01:06,566 --> 00:01:09,100
arranged alphabetically by these letters.

25
00:01:09,100 --> 00:01:11,833
throughout the library you'll see signs

26
00:01:11,833 --> 00:01:14,066
that direct you to the correct floor for

27
00:01:14,066 --> 00:01:14,800
your book.

28
00:01:14,800 --> 00:01:17,700
This book's call number starts with H so

29
00:01:17,700 --> 00:01:20,966
it will be on the third floor. You can

30
00:01:20,966 --> 00:01:23,133
also pick up a map in the library that

31
00:01:23,133 --> 00:01:24,866
will give you a more detailed view of

32
00:01:24,866 --> 00:01:27,433
where books are located on each floor. On

33
00:01:27,433 --> 00:01:30,966
this map of the third floor "HM" will

34
00:01:30,966 --> 00:01:34,200
be located here [arrow on screen pointing to book stack map] alphabetically between "HJ"

35
00:01:34,200 --> 00:01:37,800
and "HQ". Once you're in the correct

36
00:01:37,800 --> 00:01:39,900
letter area for your book you'll see

37
00:01:39,900 --> 00:01:41,933
number ranges on the sides of the

38
00:01:41,933 --> 00:01:44,466
shelves. Find the number range where your

39
00:01:44,466 --> 00:01:47,066
book fits and then locate your book on

40
00:01:47,066 --> 00:01:50,500
the shelf.

41
00:01:50,500 --> 00:01:53,200
In addition to print books you'll also

42
00:01:53,200 --> 00:01:55,800
find ebooks when you search in DELCAT.

43
00:01:55,800 --> 00:01:59,100
To access an e-book click the "View Now"

44
00:01:59,100 --> 00:02:03,966
button. From here

45
00:02:03,966 --> 00:02:05,833
you'll be able to download the entire

46
00:02:05,833 --> 00:02:09,633
book or individual chapters. Some ebook

47
00:02:09,633 --> 00:02:11,666
platforms prompt you to set up a free

48
00:02:11,666 --> 00:02:15,033
account before you can read the book. You

49
00:02:15,033 --> 00:02:17,466
can use DELCAT to access information in

50
00:02:17,466 --> 00:02:20,333
other formats as well. Experiment with

51
00:02:20,333 --> 00:02:22,533
the filter column on the left to find

52
00:02:22,533 --> 00:02:25,466
articles, videos, and additional materials

53
00:02:25,466 --> 00:02:28,400
related to your topic. You can ask a

54
00:02:28,400 --> 00:02:30,700
librarian for help with any part of your

55
00:02:30,700 --> 00:02:33,233
research process. We can assist you with

56
00:02:33,233 --> 00:02:35,866
developing keywords and refining a topic,

57
00:02:35,866 --> 00:02:39,200
choosing the best databases, using DELCAT

58
00:02:39,200 --> 00:02:41,500
and finding books in the library, and

59
00:02:41,500 --> 00:02:45,000
using "Get It" to access electronic sources.
