

1

00:00:00,000 --> 00:00:00,166

2

00:00:00,166 --> 00:00:03,366

Welcome! This tutorial will show you how

3

00:00:03,366 --> 00:00:05,466

to access an electronic copy of an

4

00:00:05,466 --> 00:00:07,433

article that you discover in one of the

5

00:00:07,433 --> 00:00:09,933

library's databases - using the "Get It"

6

00:00:09,933 --> 00:00:13,500

system. Most databases offer a mixture of

7

00:00:13,500 --> 00:00:15,733

article citations, which provide

8

00:00:15,733 --> 00:00:17,633

information about the article, but are

9

00:00:17,633 --> 00:00:20,300

not the articles actual content, as well

10

00:00:20,300 --> 00:00:22,500

as full-text articles which are

11

00:00:22,500 --> 00:00:24,666

electronic copies of the actual article

12

00:00:24,666 --> 00:00:27,300

itself. In the search that I have done

13

00:00:27,300 --> 00:00:30,533

here two full-text articles are available

14

00:00:30,533 --> 00:00:33,000

within this database. Clicking on these

15

00:00:33,000 --> 00:00:35,033

links will bring me directly to the full

16

00:00:35,033 --> 00:00:37,500

content of the article that I can read

17

00:00:37,500 --> 00:00:41,700

and download. If a database does not have

18

00:00:41,700 --> 00:00:43,566

a direct link to an article that you're

19

00:00:43,566 --> 00:00:46,100

seeking, click on the "Get It" button to

20

00:00:46,100 --> 00:00:47,600

search through all of the library's

21

00:00:47,600 --> 00:00:49,466

holdings and connect with a full-text

22

00:00:49,466 --> 00:00:52,166

copy of the desired article. "Get It"

23

00:00:52,166 --> 00:00:54,000

offers several ways for you to get to

24

00:00:54,000 --> 00:00:57,100

the content that you're seeking. Most

25

00:00:57,100 --> 00:00:59,166

often "Get It" will bring you directly to

26

00:00:59,166 --> 00:01:01,800

the article as in this case. Seek out the

27

00:01:01,800 --> 00:01:04,233

link to the PDF of your article to view

28

00:01:04,233 --> 00:01:07,800

its content. If "Get It" cannot link you

29

00:01:07,800 --> 00:01:09,933

directly to the article, you may see a

30

00:01:09,933 --> 00:01:12,366

screen like this indicating that the

31

00:01:12,366 --> 00:01:15,166

article is not available online but may

32

00:01:15,166 --> 00:01:18,066

be available in print. Click on the link

33

00:01:18,066 --> 00:01:20,666

to DELCAT Discovery to find out if the

34

00:01:20,666 --> 00:01:22,666

library has a copy of this journal in

35

00:01:22,666 --> 00:01:27,000

its print collection. Once in DELCAT

36

00:01:27,000 --> 00:01:29,133

Discovery, you will need to specify that

37

00:01:29,133 --> 00:01:31,766

you're looking for a journal. Use the

38

00:01:31,766 --> 00:01:36,166

facets on the left to select journals.

39

00:01:36,166 --> 00:01:39,866

Now examine the results. Items marked

40

00:01:39,866 --> 00:01:42,100

with the "University of Delaware Library"

41

00:01:42,100 --> 00:01:45,633

are held here at UD. However, the journal

42

00:01:45,633 --> 00:01:47,500

that we are seeking is listed as

43

00:01:47,500 --> 00:01:51,166

"WorldCat Libraries". This indicates that

44

00:01:51,166 --> 00:01:53,333

another library in the system has this

45

00:01:53,333 --> 00:01:56,900

journal, but the UD library does not.

46

00:01:56,900 --> 00:01:59,666

Therefore in order to get to this

47

00:01:59,666 --> 00:02:01,500

article we will have to use the

48

00:02:01,500 --> 00:02:03,933

Interlibrary Loan service by using the

49

00:02:03,933 --> 00:02:06,600

link to Interlibrary Loan located on the

50

00:02:06,600 --> 00:02:08,600

"Get It" screen.

51

00:02:08,600 --> 00:02:11,300

Remember librarians are always available

52

00:02:11,300 --> 00:02:13,633

to assist you. Please feel free to

53

00:02:13,633 --> 00:02:16,366

contact a librarian at any time if you

54

00:02:16,366 --> 00:02:18,100

cannot access an article that you need

55

00:02:18,100 --> 00:02:20,300

or if you would like assistance with any

56

00:02:20,300 --> 00:02:22,400

part of your research. Thanks for

57

00:02:22,400 --> 00:02:25,600

watching, and good luck!
