1
00:00:00,000 --> 00:00:02,733

2
00:00:02,733 --> 00:00:05,666
A quick and easy way to look for

3
00:00:05,666 --> 00:00:08,100
scholarly publications - especially in the

4
00:00:08,100 --> 00:00:10,200
early stages of your research process - is

5
00:00:10,200 --> 00:00:13,066
to use Google Scholar. It's a good

6
00:00:13,066 --> 00:00:14,900
complement to the more specialized

7
00:00:14,900 --> 00:00:17,400
library databases although it doesn't

8
00:00:17,400 --> 00:00:20,600
replace them. This tutorial will cover

9
00:00:20,600 --> 00:00:23,400
the basic search process and the "library

10
00:00:23,400 --> 00:00:25,700
links" setting. you can get the Google

11
00:00:25,700 --> 00:00:27,766
Scholar by going directly to

12
00:00:27,766 --> 00:00:30,233
scholar.google.com

13
00:00:30,233 --> 00:00:33,900
or you can get there coming in through the

14
00:00:33,900 --> 00:00:37,700
library's database page. From this page

15
00:00:37,700 --> 00:00:41,733
click on "G", scroll through the list until

16
00:00:41,733 --> 00:00:44,233
you see Google Scholar, and click on that

17
00:00:44,233 --> 00:00:45,700
link.

18
00:00:45,700 --> 00:00:48,733
Let's start by conducting a basic search

19
00:00:48,733 --> 00:00:51,766
using the topic "herbicides in

20
00:00:51,766 --> 00:00:56,933
groundwater". The results page looks a

21
00:00:56,933 --> 00:00:58,900
little different from the standard

22
00:00:58,900 --> 00:01:02,166
Google search. You see a list of sources

23
00:01:02,166 --> 00:01:04,700
which can include journal articles, books,

24
00:01:04,700 --> 00:01:06,066
case-law,

25
00:01:06,066 --> 00:01:11,733
charts, etc. Each result as a title, a list

26
00:01:11,733 --> 00:01:14,400
of authors, partial citation information,

27
00:01:14,400 --> 00:01:18,766
and an extract with your search terms

28
00:01:18,766 --> 00:01:22,100
highlighted. There is also some valuable

29
00:01:22,100 --> 00:01:24,500
information at the end such as the

30
00:01:24,500 --> 00:01:26,566
number of times an article was cited in

31
00:01:26,566 --> 00:01:29,300
other publications, and a link to related

32
00:01:29,300 --> 00:01:33,366
articles. On the left side you can limit

33
00:01:33,366 --> 00:01:36,133
the results by date, or sort by relevance

34
00:01:36,133 --> 00:01:39,400
or by date, and you have the option of

35
00:01:39,400 --> 00:01:41,600
including or excluding patents and

36
00:01:41,600 --> 00:01:46,033
citations. On the right side you have

37
00:01:46,033 --> 00:01:48,566
links which generally lead you to the

38
00:01:48,566 --> 00:01:51,100
full text of an article in either HTML

39
00:01:51,100 --> 00:01:57,166
or PDF format. Clicking on a title will

40
00:01:57,166 --> 00:01:59,600
take you to that article page where,

41
00:01:59,600 --> 00:02:01,166
depending on the publisher and

42
00:02:01,166 --> 00:02:03,666
subscription, you may have access to the

43
00:02:03,666 --> 00:02:07,600
full-text. Look for the PDF icon or

44
00:02:07,600 --> 00:02:10,433
scroll down past the abstract to see if

45
00:02:10,433 --> 00:02:13,133
the full text is there in the browser. A

46
00:02:13,133 --> 00:02:16,533
more direct way to reach the full text

47
00:02:16,533 --> 00:02:20,466
is to use these HTML/PDF links. Clicking

48
00:02:20,466 --> 00:02:23,266
on HTML takes you to the article page in

49
00:02:23,266 --> 00:02:25,400
the browser where the full text is

50
00:02:25,400 --> 00:02:28,266
available as we saw in the previous case.

51
00:02:28,266 --> 00:02:32,200
Clicking on a PDF link opens the file in

52
00:02:32,200 --> 00:02:34,733
a browser and you have the options of

53
00:02:34,733 --> 00:02:37,833
reading it there, or downloading it to

54
00:02:37,833 --> 00:02:40,533
your desktop or other location, or

55
00:02:40,533 --> 00:02:44,833
printing a copy. For those articles which

56
00:02:44,833 --> 00:02:48,966
do not have a PDF or HTML option, select

57
00:02:48,966 --> 00:02:53,100
the "Get It" link. Oftentimes this will get

58
00:02:53,100 --> 00:02:55,066
you to the article page with full-text

59
00:02:55,066 --> 00:02:57,733
access. But when no full text is

60
00:02:57,733 --> 00:03:00,633
available use the: "Request a copy through

61
00:03:00,633 --> 00:03:04,133
Interlibrary Loan" link. Use this service

62
00:03:04,133 --> 00:03:05,633
whenever you come across an article

63
00:03:05,633 --> 00:03:08,100
that's not available or is requesting

64
00:03:08,100 --> 00:03:10,900
payment. Do not pay for articles! Your

65
00:03:10,900 --> 00:03:12,833
course fees already provide you with

66
00:03:12,833 --> 00:03:16,700
extensive library services. If you are

67
00:03:16,700 --> 00:03:19,400
not seeing the "Get It" link you may need

68
00:03:19,400 --> 00:03:21,866
to check the "library links" setting.

69
00:03:21,866 --> 00:03:24,200
Configuring this setting allows Google

70
00:03:24,200 --> 00:03:27,000
Scholar to check for license access to

71
00:03:27,000 --> 00:03:28,966
articles and includes links in the

72
00:03:28,966 --> 00:03:33,033
results list. To check the settings go to

73
00:03:33,033 --> 00:03:36,166
the collapsed menu and click on settings.

74
00:03:36,166 --> 00:03:40,300
Next, click on "library links". If you do

75
00:03:40,300 --> 00:03:43,700
not see any check boxes do a search for

76
00:03:43,700 --> 00:03:46,700
University of Delaware. Check the

77
00:03:46,700 --> 00:03:49,633
appropriate boxes. Also search for

78
00:03:49,633 --> 00:03:55,100
WorldCat, and check that box as well. This

79
00:03:55,100 --> 00:03:56,966
will bring in results from the library

80
00:03:56,966 --> 00:03:59,766
catalog. These then are the correct

81
00:03:59,766 --> 00:04:01,833
settings to get links to the library

82
00:04:01,833 --> 00:04:04,266
resources into the Google Scholar

83
00:04:04,266 --> 00:04:08,600
results list. If at any point in the

84
00:04:08,600 --> 00:04:11,633
process you run into trouble please feel

85
00:04:11,633 --> 00:04:13,633
free to reach out to the library for

86
00:04:13,633 --> 00:04:16,066
support.
