1
00:00:03,166 --> 00:00:08,799
If you wish to discover if the Library has a particular edition of an item,

2
00:00:08,800 --> 00:00:14,000
start by conducting a title search. For more on searching by title,

3
00:00:14,000 --> 00:00:18,233
please see the "Known Item Searching" tutorial.

4
00:00:18,233 --> 00:00:23,066
In this case, though a number of results are returned which may be helpful,

5
00:00:23,066 --> 00:00:31,432
only the first result is an exact title match. This is a 2016 eBook edition of this particular handbook.

6
00:00:31,433 --> 00:00:38,866
However, this does not mean that the 2016 eBook edition is the only one held by the UD Library.

7
00:00:38,866 --> 00:00:48,899
Click on "Explore all editions & formats" to view all additional editions, formats or translations of this item.

8
00:00:48,900 --> 00:00:59,066
If you are viewing the item's full record, this menu can also be accessed by clicking on "Explore Editions and Formats".

9
00:00:59,066 --> 00:01:05,066
This menu reveals that there are, in fact, many more current editions of this item held here at UD

10
00:01:05,066 --> 00:01:10,099
 then just the 2016 edition that was shown in the result set.

11
00:01:10,100 --> 00:01:14,766
As always, be sure to check that the University of Delaware Library is listed

12
00:01:14,766 --> 00:01:22,332

rather than "Held by other libraries worldwide", which would indicate that we do not have the item at our library.

13
00:01:22,333 --> 00:01:29,866
The editions and formats function is also important if you would like to know if the Library has an item in a different format.

14
00:01:29,866 --> 00:01:38,266
For example, let's use this function to determine if the Library has a Blu-Ray copy of the film, "Jaws".

15
00:01:38,266 --> 00:01:42,732
The first film that comes up in our results is a DVD.

16
00:01:42,733 --> 00:01:50,166
To investigate if there are other formats of this movie click on, "Explore all editions & formats" to see what other formats of this film are available.

17
00:01:50,166 --> 00:01:56,999
From here, you can see that the UD Library holds this film in several different formats.

18
00:01:57,000 --> 00:02:00,800
There are many other ways to make DELCAT Discovery work for you.

19
00:02:00,800 --> 00:02:07,500
If you're having trouble finding what you need, please contact a Librarian for help by clicking on, "Ask the Library" on the home page

20
00:02:07,500 --> 00:02:12,400
or by visiting us at the Reference Desk.
